

Company Occupational Workplace Safety Self-Assessment Tool

	Yes	No
Do you know and understand your health and safety responsibilities?		
Do you have definite procedures in place to identify and control hazards?		
Do you set objectives for health and safety just as you do for quality, production and sales?		
Have you committed appropriate resources to health and safety?		
Have you explained health and safety responsibilities to all employees and made sure that they understand them?		
Have employees been trained to work safely and use proper protective equipment?		
Is there a hazard reporting procedure in place that encourages employees to report all unsafe conditions and unsafe practices to their supervisors?		
Are managers, supervisors, and workers held accountable for health and safety just as they are held accountable for quality?		
Is safety a factor when acquiring new equipment or changing a process?		
Do you keep records of your program activities and improvements?		
Do you keep records of the training each employee receives?		
Do your records show that you take disciplinary action when an employee violates safety procedures?		
Do you review your health and safety program at least once a year and make improvements as needed?		

If you answered NO to even one question you are at risk of an occupational health and safety violation. We can help. [Contact us](#) today.
